

DEDZA DISTRICT STANDARDISED TEST

2024 END OF TERM TWO EXAMINATIONS FOR STD 8

PRIMARY SCIENCE (100 MARKS)

Date : _____

Subject number: P163

Times allowed: 2 Hours

08:00 – 10:00 AM

Name of candidate _____

(Surname first)

Name of School _____

Instructions:

1. This paper contains 6 pages please check
- 2.
3. Write your examination number on top of each page of the questions paper
4. Write your name and name of your school in the space provided
5. In the table provided on this page, tick against the question number you have answered.
6. In section A choose (a, b, c or d) that represent the correct answer of each question.

Important

- ✓ Please make sure you have written your name and examination on question paper
- ✓ Please hand in your filled in question paper to the invigilator at the end of examination.

Question number	Tick 21 – 30 if answered	Do not write in these columns

SECTION A (40 MARKS)

AGRICULTURE

1. Which of the following is a product from a farm animal skin?
A. Manure C. Shoes
B. Milk D. Cotton
2. Why is hardening off the seedlings at the nursery bed important?
A. To reduce competition of food
B. To make the soil loose
C. To prepare seedlings for hot and dry condition
D. To reduce pest and diseases
3. What is the advantage of seed propagation over grafting method?
A. It is expensive.
B. It bears more fruits.
C. It is cheap and easy.
D. It takes a short period of time.
4. If fish in a pond are fed 5 % of the body weight daily, if the total weight of all the fish in a pond is 200kg. What is the amount of feed needed per day?
A. 5kg C. 100kg
B. 10kg D. 200kg
5. Which of the following ways can control east coast fever in cattle?
A. Dipping
B. Quarantine
C. Burying infected cattle
D. Restricting movement
6. Which of the following is an activity in marketing?
A. Processing C. Supplying
B. Planting D. Harvesting
7. Which of the following crops is a fruit vegetable?
A. Lettuce C. Sweet potato
B. Onions D. Egg plant
8. What is the best time to start keeping records?
A. Soon after planting crops
B. When farming activities started
C. Soon after selling crops
D. When farm inputs are bought
9. What is the best time to stock fish ponds?
A. During the cool weather
B. During the hot weather
C. During the winter season
D. During the rainy season
10. Which of the following is the sign of anthrax in goats?
A. Quick breathing
B. Blisters on feet
C. Swelling of stomach
D. Saliva coming out
11. Why should a case of a buck be slightly larger than that of a doe?
A. To have enough ventilation
B. To control parasites
C. To keep more rabbits
D. To ease mating
12. Which of the following layers of soil has the highest organic matter?
A. Parent rock
B. Weathered rock
C. Top soil
D. Sub soil
13. What is the use of a beam in a ridger?
A. Hold all parts of the ridger
B. Attaches the ridger to the beam
C. Pushes the soil to each side
D. Helps to remove the ridger

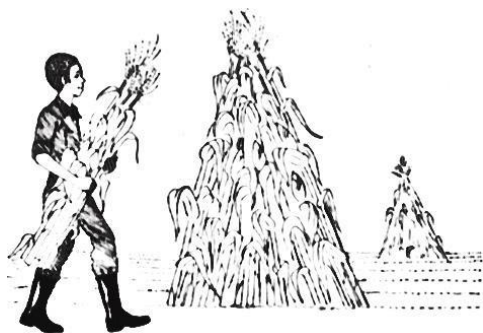

14. Which of the following is a characteristic of indigenous trees?

- A. Require more care
- B. Have soft timber
- C. Easily attacked by diseases
- D. Withstand drought

15. To which sub branch of agriculture does horticulture belong?

- A. Agronomy
- B. Pomoculture
- C. Floriculture
- D. Oreliculture

Figure 1 is a diagram of a learner harvesting maize. Use it to answer question 16 and 17.

16. Identify the method of harvesting maize above.

- A. Plucking
- B. Cutting
- C. Stooking
- D. Stripping

17. Why is this method recommended by farmers?

- A. To allow crops to dry quickly
- B. To allow farmers to kill more mice
- C. To protect maize from thieves
- D. To protect the maize from fire

The following information was obtained on a vegetable farm. Use it to answer questions 18 and 19.

- Sold 100kg tomatoes at K10,000
- Bought 25kg CAN at K10,000
- Bought tomato seeds at K400
- Sold 50kg rape at K2,000

18. What are the total sales?

- A. K10,400
- B. K12,000
- C. K20,000
- D. 20,400

19. What was the farmer's profit?

- A. K1,600
- B. K9,000
- C. K8,000
- D. K2,000

20. Which of the following types of chickens is kept for both egg and meat production?

- A. Black anstralp
- B. Broilers
- C. Layers
- D. Hyline

SCIENCE AND TECHNOLOGY

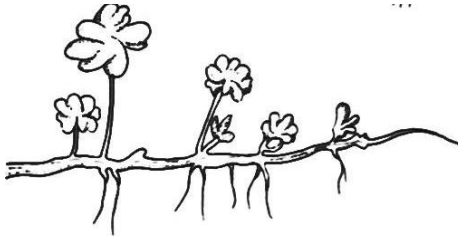

21. Which of the following is an example of energy of shape?

- A. Heat energy
- B. Kinetic energy
- C. Potential energy
- D. Electrical energy

22. Which of the following diseases can be controlled by eating a balanced diet?

- A. Malaria
- B. Diarrhoea
- C. Marasmus
- D. Polio

Figure 2 shows the diagram of a stem type. Use it to answer question 23 and 24.

23. Identify the type of stem.

- A. Underground stem
- B. Climbing stem
- C. Creeping stem
- D. Erect stem

24. Which of the following plants has a type of the stem above?

- A. Granadilla
- B. Sweet potato
- C. Bamboos
- D. Irish potatoes

25. Which of the following is a Vegetable stain?

- A. Milk
- B. Dyes
- C. Soot
- D. Tea

26. The importance of evaporation in everyday is for _____

- A. Making ice blocks
- B. Drying clothes
- C. Preparation of jelly
- D. Cooling hot objects

27. Which of the following parts of the human brain controls digestion?

- A. Cerebellum
- B. Cerebrum
- C. Spinal cord
- D. Medulla oblongata

28. Which of the following source of electricity depends on water?

- A. Solar energy
- B. Hydro- power
- C. Chemical power
- D. geo-thermal power

29. Which of the following mixtures can be separated by winnowing?

- A. Sand and salt
- B. Brans and husks
- C. water and paraffin
- D. Sand and iron filings

30. Why does a vacuum flask have a shiny inner surface?

- A. To reduce loss of heat
- B. To beautify the flask
- C. To transfer heat
- D. To strengthen the flask

31. The unborn baby gets food substances from the mother through the _____

- A. Ovary
- B. Umbilical cord
- C. Fallopian tube
- D. Amnion

32. What happens to the diaphragm during inspiration?

- A. It contracts and become flat
- B. It relaxes and moves upwards
- C. It increases in size
- D. It forms a dome shape

33. The liquid that contains sperm is called _____

- A. Zygote
- B. Fluid
- C. Amnion
- D. Semen

34. Which of the following seeds can be dispersed by wind?

- A. Cotton
- B. Blackjack
- C. Mango
- D. Guava

35. Which of the following is an indigenous food preserving method?

- A. Jam making
- B. Bottling
- C. Freezing
- D. Salting

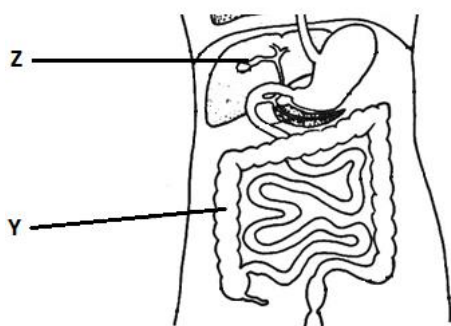

36. Data collected from a scientific investigation can be analyzed by using _____

- A. Cameras C. Pictures
B. Game D. Graphs

37. Which of the following are the input devices of a computer?

- i. Keyboard iii. Mouse
ii. Screen iv. Cursor
A. i and ii C. ii and iii
B. i and iii D. iii and iv

Figure 3 is a diagram showing parts of the human digestive system. Use it to answer questions 38 and 39.

39. The part labelled Z is

- A. Gall bladder
B. Rectum
C. Gullet
D. Epiglottis

39. What is the function of the part labelled Y?

- A. Stores food in the body
B. Directs food in the body
C. Absorbs water from the food
D. Produces digestive juices

40. Which of the following is an example of protective foods?

- A. Paw-paw C. Honey
B. Fish D. Sorghum

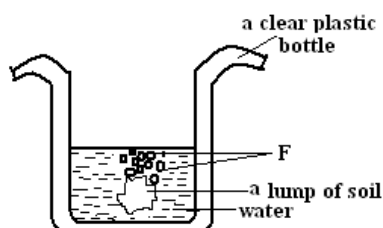

SECTION B (60 MARKS)

AGRICULTURE

41. a. State any two problems of farm business. (2 marks)

b. Explain any one importance of agriculture on an individual. (2 marks)

Figure 4 below shows an experiment conducted on soil composition. Use it to answer question 42.

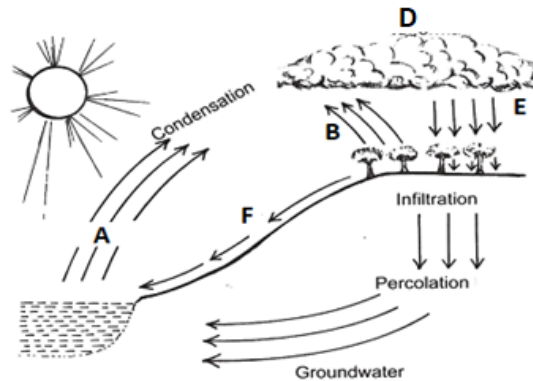

42 a. What is the aim of the experiment? (1 mark)

b. Name the part labelled A. (1 mark)

c. Explain what will happen if the lump of soil completely dissolves in water? (2 marks)

Figure 5 below shows water cycle. Use it to answer question 43.

43 a. Identify the processes labelled A, B and E (3 marks)

A: _____ B: _____

E: _____

b. How process D is formed. (2 marks)

c. Give any one effect of the process labelled F to agricultural production. (1 mark)

44 a. Why should chemicals from a sprayer be properly disposed? (1 mark)

b. State any two indigenous farm technologies that are used as pesticides. (2 marks)

c. Give any one way of maintaining a hand fork. (1 mark)

45 a. Explain how each of the following risks can be managed. (4 marks)

i. Floods: _____

ii. Pest and diseases: _____

b. Why is it important to apply manure in a pond? (1 mark)

c. State any two factors to consider when choosing a site for pond construction. (2 marks)

46 a. Explain one advantage of each of the following systems of keeping chickens.

i. Free range: _____

_____ (2 Marks)

ii. Battery cage: _____ (2 Marks)

_____ (2 Marks)

b. Mention three ways of tending flowers. (3 marks)

SCIENCE AND TECHNOLOGY

47 a. Mention any two equipment used in laundry. (2 marks)

b. Classify the following fabrics into natural and synthetic fibres: silk, nylon, acetate, aluminum.

Natural: _____

Synthetic: _____

c. State the importance of the following in laundry:

Starch: _____

_____ (1 Mark)

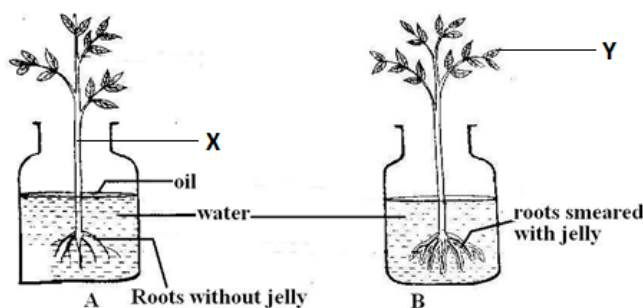

Mending: _____

_____ (1 Mark)

Hanging the coloured clothes in the shade: _____

_____ (1 Mark)

Figure 6 below shows an experiment conducted on external parts of the plant. Use it to answer question 48.

48 a. i. Name the parts labelled X and Y. (2 marks)

X _____ Y _____

ii What will happen to plant dipped in bottle B (1 mark)

iii Give a reason for your answer in question 48 a ii. above? (1 mark)

b. What is the aim of the experiment shown above? (1 mark)

c. List any two end products (by – products) of the photosynthesis in plants. (2 marks)

49 a. State any two signs and symptoms of round worms. (2 marks)

b. State one protective mechanisms used by the following vertebrates. (2 marks)

Chameleon: _____

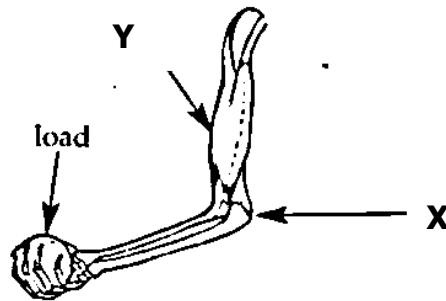

Snake: _____

c. Explain the difference between reflection and refraction. (2 marks)

50 a. Describe boiling method of cooking. (2 marks)

b. Give any one factor to consider when planning packed meals. (2 marks)

Figure 7 shows a type of lever system. Use it to answer question 51.

51 a. Identify the part of the lever represented by letters X and Y (2 marks)

X _____ Y _____

b. Name class of lever shown above. (1 mark)

c. Calculate the mechanical advantage when effort is 2kg and the load is 10kg. (2marks)

END OF QUESTION PAPER!
